KENT NIÑO PALER

Records & Information Management Specialist | Data Quality & Reporting | Public-Sector Operations

General Santos City, Philippines | +63 916 227 5205 | Ayamenakayama27@gmail.com | linkedin.com/in/palerkentnino

PROFESSIONAL SUMMARY

Records and information management professional with 15+ years in Philippine public-sector administration and information systems, including 10 years as a DepEd school registrar and nearly six years with the Local Government of General Santos City. Owns the learner-records lifecycle for a secondary school — enrollment, LIS/EBEIS data validation, statistical reporting, document issuance, and archiving — with 100% accuracy across 3,823 learner records in LIS validation and an Outstanding performance rating for SY 2025–2026 4.55. Pairs a decade of Data Privacy Act–compliant records operations with a systems background in business process mapping, database design, QA testing, and user training. Ready to move into remote records, data quality, documentation, and operations roles.

CORE COMPETENCIES

Records & Documentation: Records Management, Records Archiving & Retrieval, Document Control & Verification, Document Issuance, Audit Trail Maintenance, Physical & Digital Filing Systems

Data & Information Management: Data Validation & Reconciliation, Data Quality Assurance, LIS/EBEIS Data Management, Statistical Reporting, Report Consolidation, Database Design

Compliance & Confidentiality: Data Privacy Act (RA 10173) Compliance, DepEd Policy Compliance, Confidential Records Handling, Government Documentation & Reporting Standards

Operations & Coordination: Administrative Operations, Enrollment Operations, Stakeholder Coordination, Deadline & Workload Management, Process Improvement, Business Process Mapping, End-User Training

Technology & Productivity: Microsoft Word, Excel, PowerPoint; Learner Information System (LIS); Enhanced Basic Education Information System (EBEIS); WinS Online Monitoring System; Technical Documentation

PROFESSIONAL EXPERIENCE

Registrar I **Sep 2016 – Present**

Department of Education — General Santos City National Secondary School of Arts and Trades, General Santos City

- Own the learner-records lifecycle for a secondary school — enrollment, LIS updates and corrections, record verification, issuance, and archiving — maintaining 100% accuracy across 3,823 learner records in LIS validation, with zero backlog and same-day retrieval (SY 2025–2026).
- Run early and regular enrollment under predominantly manual processing: verify enrollment documents for completeness and authenticity, place learners correctly, and enroll all presenting learners before the opening of classes.
- Manage learner and school data in LIS and EBEIS — encoding, updating, monitoring, user-account creation, and access requests — resolving most requests within the same working day and escalating issues beyond school-level access to the Schools Division Planning Unit.
- Prepare, validate, and consolidate School Forms, the BEIS Profile, WinS Online Monitoring System reports, and other statistical reports for school planning and division-level monitoring, submitting on or before official deadlines with minimal corrections.
- Prepare, verify, and release certificates, forms, and official learner records, and process CAV, scholarship, and 4Ps requests, with a registry-logbook audit trail and same-day release within office hours under Data Privacy Act (RA 10173) controls.
- Organize and maintain physical and digital archives of current and historical school records, including backlog records, improving filing through consistent indexing and classification and completing year-end archiving 1–2 weeks ahead of deadlines.
- Consolidate quarterly Budget Execution Documents (BEDs) and Budget Accountability Reports (BARs) to DepEd/DBM standards, submitting 4–5 working days before division deadlines, and supply learner statistics for the School Improvement Plan and Annual Implementation Plan.

Computer Operator I **May 2013 – Aug 2016**

Local Government of General Santos City — City Mayor's Office, Information and Communication Technology Division

- Designed, built, and maintained information systems for city government offices, including the motorized tricycle franchising system (LG-MTFRS), City Health Information System, Billing and Collection Systems, Accountable Form Management System, Community Tax Information System, and Real Property Assessment and Tax Systems.
- Led the ICT Division's mapping and optimization of manual and system-based business processes, gathering requirements from department heads and end-users to identify operational gaps and automation opportunities.
- Designed databases and software applications using Visual Basic.NET and MSSQL 2012, and validated them through QA testing, user acceptance testing, and time-and-motion studies before rollout.

- Directed project development activities in the City Health office and trained 12 end-users, leading implementation and handover to client offices with minimal disruption to operations.
- Wrote technical and functional documentation — user manuals, system procedures, workflow diagrams, and training materials — to support system adoption and maintenance.

Administrative Aide IV **Nov 2010 – May 2013**

Local Government of General Santos City — City Social Welfare and Development Office, Family Resource Allocation and Management Enhancement (F.R.A.M.E.)

- Served as Team Leader for 12 Team Members and Computer Maintenance in-charge for the F.R.A.M.E. program, directing resident-data validation and office IT support.
- Led the team in validating resident records — personal details, family background, and PhilHealth and contribution records — achieving 99% data accuracy.
- Reached 99% registration completion of F.R.A.M.E. out of 26,000 members, also during a barangay registration campaign.
- Served as Information System and Database Administrator: coordinated system updates, security patches, and policy implementation with developers, and maintained office computers through hardware and software troubleshooting.

EDUCATION

Master's in Public Administration **Jun 2015 – Mar 2018**

Notre Dame of Dadiangas University, General Santos City

Bachelor of Science in Information Technology **Jun 2006 – Mar 2010**

Notre Dame of Dadiangas University, General Santos City

TRAINING & CERTIFICATES

- DICT-ICT012: Advanced Level of Digital Transformation — March 2024
